Essential Clinical Skills is a clinical skills text and workbook designed specifically for use by Enrolled Nursing students throughout Australia. Written to match the HLT07 Training Package requirements, each skill matches the relevant competency as set out by the Australian Nursing and Midwifery Council in the ANMC National Competency Standards for the Enrolled Nurse (2002).

The text clearly and succinctly explains each key clinical skill and provides a structured format for students to undertake many of the skills taught in HLT43407 Certificate IV in Nursing (Enrolled/Division 2 Nursing) and HLT51607 Diploma of Nursing (Enrolled/Division 2 Nursing). Using this text, students and instructors are able to translate their skills and knowledge into demonstrable competencies that fulfil the required standards.
Optional Clinical Skills 2e is a clinical skills practical and theoretical course designed specifically for use by Enrolled Nursing students throughout Australia.

Written to match the core and common elective units from the HLT07 Health Training Package, each skill matches the relevant competency as set out by the Australian Nursing and Midwifery Council in the ANMC National Competency Standards for the Enrolled Nurse (2002).

This course clearly and succinctly explains each key clinical skill and provides a structured format for students to undertake many of the skills taught in HLT43407 Certificate IV in Nursing (Enrolled/Division 2 Nursing) and HLT51607 Diploma of Nursing (Enrolled/Division 2 Nursing). By undertaking this course, students are able to translate their skills and knowledge into demonstrable competencies that fulfill the required standards. New to the course is expanded coverage of Intravenous Care to include various forms of intravenous medication administration and venipuncture.

There is also expanded coverage of Documentation including Admissions, Discharge, and Health Teaching skills, as well as more on Bedmaking, Isolation Nursing and Clinical Handover. Videos linking theory concepts to practical examples is also available, either for the full course or by chapter.
